### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Application Status***

1. Applicant's response to the Office Action mailed June 20, 2007 on September 26, 2007 is acknowledged.

### ***Claim Disposition***

2. Claims 38-42 have been added. Claims 30-32 and 38-42 are pending and are under examination.

### ***New-Specification Objection***

3. The specification is objected to because of the following informalities:

The specification is objected to because the word "of" is misspelled as "af", see page 2, line 26 of the specification.

The specification is objected to because the following appears on page 3 line 26, ,knockout'.

### ***New-Claim Objection***

4. Claims 31 is objected to because of the following informalities:

Claim 31 is objected to because the claim is missing "of" in (i) before "SEQ ID NO:1".

***New- Claim Rejections - 35 U.S.C. § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 31, 40 and 42 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The claims are drawn to a method of producing triacylglycerol (s) with uncommon fatty acids which comprises transforming a plant or yeast cell, fungi or plant which produces uncommon fatty acids. The claims recite added material, which is not supported by the original disclosure. Claims 31 and the dependent claims hereto (claims 40 and 42) recite "plant or yeast cell, fungi or plant which produces uncommon fatty acid" and no support was found in the instant specification for this language. Therefore, the specification lacks adequate written description.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

6. Claims 30-32 and 38-42 are rejected under 35 U.S.C. 112, second paragraph, as failing to set forth the subject matter, which applicant (s) regard as their invention.

Claims 30-31 are confusing for the recitation of "which containing" or "which comprising". The dependent claims are also included.

Claim 31 is indefinite for the recitation of "transforming a plant or yeast cell, fungi or plant based on the redundancy (see also claims 30, 32 and 39-41 with similar language). The claim is also indefinite because of the fact that the plant cell is transformed not the entire plant. The dependent claims hereto are also included

Claim 32 is confusing for the recitation of "...producing triacylglycerol and/or triacylglycerols. The dependent claims are also included.

***Response to Applicant's Arguments:***

7. Applicant's arguments have been fully considered. Note that objections have been made for the reasons set forth above. In addition, rejections were made under 35 U.S.C. 112, first and second paragraphs as set forth above based on amendments made to the claims. Note that the rejections previously made have been withdrawn, Thus applicant's comments are moot.

***Conclusion***

8. No claims are presently allowable.

9. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
